

Calder Surprep PT1E Rotary Scraping Tool

Perfect for any small diameter jobs the Calderprep Surprep is lightweight, strong and durable. The tool delivers consistent results over traditional hand scraping tooling.

The Calder Surprep scraping tool will peel 100% of the scraped area every time. With mandrills available from 20-90mm, it's perfect for any small diameter pipe scraping job.

FEATURES

- Lightweight, strong and durable in design
- Mandrills available for sizes 20-90mm
- Exchangable pipe mandrel inserts
- Portable and convenient carry case
- Constant peeling quality
- 0.25mm \pm 0.05mm cut depth

Optional

- Additional mandrills can be ordered to fit requirements
